

Where on an animal would you look for the popliteal lymph node

Popliteal lymph node can be found at the popliteal fossa of the knee. Popliteal lymph nodes are small in size and they are about seven in number in humans. One can be found immediately beneath popliteal fascia, near the end of the small saphenous vein of the leg. Another can be found in between the popliteal artery and the posterior surface of the knee joint.

Plan A is a flat rate of \$50 per month unlimited data. Plan B is zero dollars per month but you pay five dollars per gigabyte of data used. If you average about 6 GB of data used per month, which option will be least expensive?

Solve the system of equations $y = x + 5$ and $y = 5x - 11$ using a graphical method.

How do you fit the article's definition of a team player? Which skills could you improve?

Most galaxies are not moving relative to Earth. moving toward Earth. moving away from Earth. The more distant a galaxy is, the less it moves relative to Earth the lower its velocity. the higher its velocity Thus, the Universe must be contracting static Thus, the Universe must be contracting. static. expanding

A basketball team lost $\frac{1}{5}$ of their games this season. If the team won 12 games, how many games did they play?

Which of the following is an example of competition that could be found in a forest? A. Deer eat berries and their droppings seed new areas creating more berry bushes.

How did King Charles I rise to power?

What's not an example of square root

Why did job specialization emerge in cities as civilizations developed

select the irrational number? A) $\sqrt{9}$ B) $\sqrt{12}$ C) $\sqrt{16}$ D) $\sqrt{20}$ E) $\sqrt{25}$ (there should be more than one answer)

In act iv Romeo and Juliet why did Juliet's parents think she was crying

The accumulation of small changes in a gene pool over a relatively short period is called: A: anagenesis B: cladogenesis C: microevolution D: punctuated equilibrium

Americans often refer to each other as either liberal or conservative. why is this distinction inadequate to address the ideological perspectives in america? how can the original and modern dilemmas of government expand our understanding of ideological categorizations

The incentive scheme that rules sumo is intricate and extraordinarily powerful. Each wrestler maintains a ranking that affects every slice of life; how much money he makes, how large an entourage he carries, how much he gets to eat, sleep, and otherwise take advantage of his success. The sixty highest-ranked wrestlers in Japan, comprising the makuuchi and juryo divisions, make up the sumo elite. A wrestler near the top of this elite pyramid may earn millions and is treated like royalty. Any wrestler in the top forty earns at least \$170,000 a year. The seventieth-ranked wrestler in Japan, meanwhile, earns only \$15,000 a year. Life isn't very sweet outside the elite. Low-ranked wrestlers must tend to their superiors, preparing their meals and cleaning their quarters. . . . So ranking is everything. 1. Which of the following central ideas from the paragraph is a reason that supports the claim "cheating exists because of incentive."

A. Every wrestler has a ranking.

B. Ranking affects your diet.

C. The makuuchi and juryo divisions make up the sumo elite.

*D. Ranking is everything.

D is the answer on engenuity

2. Check the three sentences that present evidence to support the idea that "Ranking is everything."

A. "The makuuchi and juryo divisions make up the sumo elite."

B. "Each wrestler maintains a ranking that affects every slice of his life."

C. "The seventieth-ranked wrestler in Japan, meanwhile, earns only \$15,000 a year."

D. "Low-ranked wrestlers must tend to their superiors."

ANSWER ON ENGENUTY B,C,D

When Lisa placed a balloon to her ear, she was able to hear what her sister was whispering from the other side of the room. When she removed the balloon, she was no longer able to hear what her sister was saying. What is the best explanation for what Lisa discovered? A) The material from which the balloon is made makes sounds seem louder.

B) There is no air pressure inside the balloon, which makes sound waves travel more quickly.

C) The air in the balloon is not as dense as the air outside the balloon, which makes sound waves echo.

D) Sound does not travel around the air outside of the balloon as well as it does through the denser air pressure inside the balloon.

Carlos has 58 pencils what is the value of the digit 5 in this number

Read the following sentence: Do your work! The sentence above is an example of a/an _____ sentence.

Which sentence uses a verb that agrees with its subject? A. where was Paul sitting b. where is the deers footprints? c. among the trees were a lone gray squirrel.

d. has your friends ever riddwn in a truxk? Help me please
