

An acid has _____ hydrogen ions than a base. a. less b. the same number of c. more d. none of the above

Answer:

The correct answer is option c.

Explanation:

Acid : These are those substance which when dissolved in water gives hydrogen ions in their solutions. They pH value less than 7.

They have higher concentration of hydrogen ion in comparison to concentration of hydroxide ions.

Base : These are those substance which when dissolved in water gives hydroxide ions in their solutions. They have pH value more than 7.

They have higher concentration of hydroxide ion in comparison to concentration of hydrogen ions.

An acid has c. more hydrogen ions than a base.

If $m \text{ arc } HAM = 265^\circ$, find the measure of the corresponding minor arc. circle Z with radius ZH, diameter MT, and point A opposite point H

Only a small fraction of the information flowing around the world is securely encrypted, and the remainder is poorly encrypted, or not encrypted at all. This is because the number of Internet users is rapidly increasing, and yet few of these people take adequate precautions in terms of privacy. In turn, this means that national security organizations, law enforcers and anybody else with a curious mind can get their hands on more information than they can cope with. –The Code Book,

Simon

Which details support the central idea that information on the Internet is not protected well enough? Check all that apply.

“only a small fraction ... is securely encrypted”

“the remainder is poorly encrypted” “the number of Internet users”

“people take adequate precautions in terms of privacy”

“anybody ... can get their hands on more information”

The s subshell can hold up to two electrons in an atom. True or False

how many times in a year may a retail pharmacy request the destruction of controlled substances? What form would be used to request the destruction in a retail pharmacy? A hospital pharmacy? What form would he used to request the destruction in a hospital pharmacy?

Ms. Everett found birthday cards in packs of 6 and envelops in packs of 9. If she wants to have the same number of cards and envelops, what is the minimum

number of each she can purchase?

What famous example of Byzantine architecture has been both a Christian church and a mosque?

Which of the following can be said about the use of agriculture? A. it bears no effect on the environment
